

Case 1 - Multi stems (bush)

Green stems indicate present year's growth

Case 2 - Single stem

Yr 1

1-yr old plant from the nursery. Anything from 80 to 150 cm high. Cut back down at planting time to 60-90 cm high.

Yr 2

2-yrs old plant. If the tree has grown well during the first season, the leading shoot will be pruned down to anything from 110 to 150 cm high.

Yr 3

3-yrs old plant. The central leader will be removed. Anything from 150 to 180 cm high.

Yr 4

4-5-yrs old plant. Developing a good branching structure. Anything from 200 to 250 cm.

Yr 5
